Subject Index to Volume 13

Acyclovir therapy, relapse of herpes simplex encephalitis after, 625
Adrenomyeloneuropathy — clinical and biochemical diagnosis, 594
Adriamycin combinations as salvage therapy in advanced MOPP-resistant Hodgkin's disease, 369
Aerosol salbutamol, comparison of wet and dry, 29
Airway disease, chronic obstructive, intravenous ranitidine has no hemodynamic effects in subjects with normal lung function and patients with, 261
Airways disease, 393
Alcohol abuse, 123
Alcoholic pancreatitis, 307
Amiodarone — a drug for all seasons, 229
Amiodarone therapy for life threatening or refractory cardiac arrhythmias, 248
Androgen receptor levels and clinical features in abnormal male sexual differentiation and infertility, 335
Anemia, aplastic, bone marrow transplantation, 451
Angiostrongyliasis in Port Moresby, 644
Antiemetic therapy with lorazepam and haloperidol, 53
Aplastic anemia, bone marrow transplantation, 451
Aplastic anemia in association with gold therapy for rheumatoid arthritis, 130
Apnea, breathing during sleep: the responses to asphyxia and prochlorperazine in normal subjects and patients with obstructive sleep, 613
araC, high dose, in acute nonlymphocytic leukemia complicating Hodgkin's disease, 641
araC, high dose, advances in clinical pharmacology and therapeutic results, 561
Asthma, exercise-induced, sodium cromoglycate as a pressurised aerosol (vicrom), 157
Asthma, month of birth and admission to hospital, 291
Asthma, severe, myoclonus following; clonazepam relieves, 285
Autoantibodies to small nuclear ribonucleoproteins, 565
Autopsy, value of, in medical audit, 478

Bone marrow transplantation for aplastic anemia, 451
Breathing during sleep, the responses to asphyxia and prochlorperazine, 613

Cancer, colorectal; knowledge and attitudes of doctors in Victoria, 81
Carcinoma, asymptomatic colonic, revealed by investigation of *Streptococcus bovis* bacteremia, 173
Cardiac arrhythmias, amiodarone therapy, 248
Carditis, acute nonspecific, with advanced heart block in Malaysians, 374
Carotid artery, internal, spontaneous dissection, 169
Cauda equina lesion due to thorotrast, 283
Cerebral abscess — manifestations of pulmonary arteriovenous malformations, 280
Cerebrovascular disease in Western Australia, 497
Collagenous colitis, 630
Colonic carcinoma, asymptomatic, revealed by investigation of *Streptococcus bovis* bacteremia, 73
Colorectal cancer, 81
Continuous ambulatory peritoneal dialysis (CAPD); an established treatment for endstage renal failure, 489
Coronary artery disease, comparison of exercise electrocardiography, thallium-201 myocardial imaging and exercise gated blood pool scan in patients, 45
Co-trimoxazole, outbreak of co-trimoxazole and gentamicin-resistant *Klebsiella aerogenes* bacteremia in neutropenic patients receiving oral co-trimoxazole prophylaxis, 636
Cryoglobulinemia, postpartum nephrotic syndrome in mixed essential, 633
Cytosine arabinoside — see araC.

Dapsone intoxication, acute, successful treatment using charcoal hemoperfusion, 509
Diabetics, long standing, non-insulin dependent, insulin secretory capacity, B-thromboglobulin and blood viscosity in, 11
Diabetics, newly diagnosed non-insulin dependent, insulin secretory capacity in, 11
Diphosphonate treatment of Paget's disease of bone, pathologic fracture due to severe osteomalacia following, 277
Diphosphonates and painful feet, 175
Dishonesty in science, prevention of, 3
Diuresis, post obstructive, 519
Duodenal ulcer, influence of smoking on the healing of, 587

Empyema due to beta-lactamase-producing *H. influenzae* type b complicating severe laryngo-pharyngitis and cervical cellulitis, 377
Epilepsy, rationalisation of therapy in severe, 601

Gastroenteritis, *Aeromonas hydrophila*, 524
Gastroenterology, diagnostic cues in, 469
Glomerulonephritis and polycythemia vera, 125
Glyceryl trinitrate tablets, stability during patient use, 147
Gray platelet syndrome, morphological and biochemical confirmation, 387

Haloperidol and lorazepam, antiemetic therapy, 53
Hemoperfusion for dapsone intoxication, 509
Hemophilia, comparison of "carrier screening" by the ratio of Factor VIII coagulant activity or antigen to Factor VIII related antigen, 463
Hepatitis, delta associated, 231
Hepatitis B viral antigens, 227
Hepatitis B virus, the role of, in the etiology of hepatocellular carcinoma in Australia, 605
Hepatocellular carcinoma and hepatitis B antigenemia in a New Zealand Chinese family, 236
Hepatosplenic schistosomiasis in a South-East Asian refugee child in South Australia, 384
Herpes simplex encephalitis, relapse of, after acyclovir therapy, 625
Hodgkin's disease, advanced MOPP-resistant, adriamycin combinations as salvage therapy, 369
Hodgkin's disease, high dose araC in acute nonlymphocytic leukemia complicating, 641
Hodgkin's disease, mantle irradiation for Stage I and Stage II, 135
Human insulin, 647
Hypercalcemia in association with renal failure, 8
Hypercalcemic states, plasma vasopressin in, 5
Hypercholesterolemia, familial, serum lipid and apolipoprotein A and B levels, 241
Hypertension is a myth, 84
Hypertension, post traumatic renal, 271
Hypertension, removing myths and misconceptions, 296
Hypertension: the realities, 185
Hypertrophic pulmonary osteoarthropathy, 513

Idols assaulted, 83
IgM nephropathy, 35
Ileo-colonic region of man, rapid intubation of, 591
Insulin secretion in diabetics, 11
Insulin secretory capacity in newly diagnosed non-insulin dependent diabetics, 621
Intubation, rapid, of the ileo-colonic region of man, 591

Lactic acidosis, fatal, in lymphoma, 179
Leukemia, high dose araC in acute nonlymphocytic, 641
Levamisole, a comparison of low dose, and penicillamine in rheumatoid arthritis, 578
Listeria meningitis — in vitro sensitivities to co-trimoxazole, penicillins and gentamicin, 76
Lorazepam as an adjunct to antiemetic therapy with haloperidol in patients receiving cytotoxic chemotherapy, 53
Lung carcinoma, early crossover of induction chemotherapy, 21
Lymphoma, fatal lactic acidosis, 179, 643
Lymphoma, fine needle aspiration cytology in the management of, 365

Methylprednisolone in lipoid nephrosis, 349
Minoxidil in severe hypertension, 527
Minoxidil therapy and renal function, cardiac function, hypertrichosis and blood pressure, 39
Mitochondrial myopathies, historical and current concepts, 299
Mitochondrial myopathy, clinical features, 353
M-mode echocardiography; reproducibility of serial left ventricular measurements in subjects with normal ventricles and patients with congestive cardiomyopathy, 457
Monoclonal antibodies in clinical medicine, 91
Monoclonal antibody, tumour visualisation using a radiolabelled, 571
Multiple myeloma with renal failure, 163
Myeloproliferative disorder, familial, dermal necrosis and chromosome Iq abnormality in a man with, 141
Myocardial infarction and beta-blockers, 181
Myocardial infarction and life events, 257
Myoclonus following severe asthma —clonazepam relieves, 285

Nephropathy, IgM, 35
Nephrotic syndrome, intravenous methylprednisolone pulse therapy in, 349
Nephrotic syndrome, post partum, in mixed essential cryoglobulinemia, 633
Neuroleptic malignant syndrome, 70
Neurological toxicity associated with vidararine (adenine arabinoside) therapy, 627

Oliguria, a simple aid to the differential diagnosis of, 608
Osteoarthritis and rheumatoid arthritis, comparison of plasma methylprednisolone concentrations following intra-articular injection in patients with, 583
Osteodystrophy in patients with chronic renal failure, 295
Osteomalacia, severe, pathologic fracture following low-dose diphosphonate treatment of, 277

Pacing for ventricular standstill, 504
Paget's disease of bone, pathologic fracture due to severe osteomalacia following low-dose diphosphonate treatment, 277
Pancreatitis, alcoholic, 307
Penicillamine, a comparison of low dose levamisole and penicillamine in rheumatoid arthritis, 578
Peptic ulcers, drugs for, 559
Perhexilene neuropathy, 517
Peripheral neuropathy and glomerulonephritis — total lipodystrophy, 65
Peritonitis, tuberculous, in chronic renal failure managed by continuous ambulatory peritoneal dialysis, 343
Plasma vasopressin in hypercalcemic states, 5
Pneumococcal disease, serotypes, 359
Pneumomediastinum, not pneumopericardium, 528
Pneumopericardium, 75
Polyarteritis nodosa affecting the spinal cord arteries, 287
Polyarthritis, symmetrical peripheral, temporal arteritis presenting as, 639
Polycythemia vera and glomerulonephritis, 125
Post partum nephrotic syndrome in mixed essential cryoglobulinemia, 633
Pulmonary arteriovenous malformations — cerebral abscess, 280
Pulmonary artery obstruction, 294

Radioimmunoassay for the detection of circulating anti-glomerular basement membrane antibodies, 15
Ranitidine, intravenous, has no hemodynamic effects in subjects with normal lung function and patients with chronic obstructive airway disease, 261
Renal complications of cytotoxic therapy, 531
Renal failure, chronic, osteodystrophy in patients, 295
Renal failure, chronic, tuberculous peritonitis, managed by continuous ambulatory peritoneal dialysis, 343
Renal failure, continuous ambulatory peritoneal dialysis — an established treatment, 489
Renal failure, hypercalcemia in association with, 8
Renal failure, multiple myeloma with, 163
Renal hypertension, post traumatic, 271
Respiratory tract symptoms in Queensland schoolchildren, 264
Rheumatic fever and rheumatic heart disease in Hong Kong, 151
Rheumatoid arthritis, a comparison of low dose levamisole and penicillamine in, 578
Rheumatoid arthritis, an update on mechanisms of cartilage destruction, 195
Rheumatoid arthritis, aplastic anemia in association with gold therapy, 130
Rheumatoid arthritis, *Plesiomonas shigelloides* septic arthritis complicating, 275
Rheumatoid arthritis and osteoarthritis, comparison of plasma methylprednisolone concentrations following intra-articular injection in patients with, 583

Scurvy and thrombocytopathy in a chronic hemodialysis patient, 523
Serum urate in healthy subjects, seasonal variations, 78, 391
Sjögren's syndrome, 565
SLE, complement allotyping in, 483
Smoking, influence of, on the healing of duodenal ulcer treated with oxmetidine or cimetidine, 587
Spinal polyarteritis nodosa, 287
Statistical significance, 183
Stevens-Johnson syndrome — was it cimetidine?, 182
Stroke — analysis of the first 700 consecutive admissions to Austin Hospital Stroke Unit, 57
Stroke type and associated risk factors, an analysis of, 497
Sudden death in infancy, Type I hyperlipoproteinemia presenting as, 381

Temporal arteritis, fatal neurological complications, 293
Temporal arteritis presenting as a symmetrical peripheral polyarthritis, 639
Thiamin inadequacy in infants; lack of evidence of amprolium in egg yolk, 51
Thorotrast, cauda equina lesion due to, 283
Thrombocytopathy and scurvy in a chronic hemodialysis patient, 523
Tuberculous peritonitis in chronic renal failure managed by continuous ambulatory peritoneal dialysis, 343
Tumour visualisation using a radiolabelled monoclonal antibody, 571

University medical presence in hospitals seventy years after Flexner and a look ahead, 187
Urinary tract infections in adults, prevention of, 177

Vidarabine neurotoxicity, 627
Vitamin B12 deficiency, 79
